Improving my design skills. Building media and file servers. Tinkering with Linux desktop operating systems. Computer gaming (Minecraft and Diablo III), comic books, Comedy, and Sci-Fi Movies.

EXPERIENCE

Navient, Fishers, IN - UX Designer | 2016 - 2017

- **Broader View** - Created front-end views using web standard code for MVC web applications for loan repayment site.
- **Team Work** - Collaborated with front-end and backend developers on many aspects of the project.
- **Additional Learning** – Learned how to write code requiring 508 compliance. Wrote Razor Syntax for front-end views as well as experimented with Angular and React for smaller side projects.

HCCMIS, Indianapolis, IN - UX Designer | 2015 - 2016

- **Primary** – As the only UX Designer I was responsible for coding all page templates for the Cascade Server. As well as any front-end views needed for other projects.
- **Creative** - Worked with the marketing teams graphic designer to help design mockups and prototypes.
- **Improved Skills** – During my tenure I improved my Bootstrap and CSS skills. I expanded my PHP skills and implemented a small project using the Skeleton framework.

Celadon Trucking, Indianapolis, IN - UX Designer | 2013 - 2014

- **Intermediary** – Acted as the liaison between the Development and Marketing Departments. Educated both teams on CSS and responsive design.
- **Unconventional** – Saved the Development department weeks of work by quickly copying 9 Wordpress sites to static HTML using a web site copy tool. Then hand coding them to ASP.Net.
- **Learning Opportunities** – Learned Visual Studio, the basics of ASP.Net, and Razor Syntax in a couple of weeks.
